

OneHQ ONEHQ CLOUD.

Whether you need private, hybrid, or dedicated – no matter your path to the cloud, OneHQ stands ready to get you there.

OneHQ's unique cloud platform offers the stability and power of enterprise-class cloud infrastructure, customised to meet your exact needs.

Since we have an array of cloud-based services, including server virtualisation, email encryption, and data protection, our OneHQ Cloud platform enables you to start small and scale big.

As a result we can pivot your IT resources from infrastructure maintenance and shift the focus to innovation and real outcomes for your business with tailored OneHQ Cloud managed services.

You can trust that we'll take your business to the cloud safely.

Make your applications and data available to employees working remotely or in branch offices with costly network upgrades

Get that noisy server out of your office and into our datacentre designed to keep it cool and secure

Skip that next big server upgrade bill by running your applications and data within servers we own and maintain

Don't worry about backup and recovery or poor performance of your server - let our team handle it for you

HERE'S HOW WE CAN HELP.

BEST OF BREED, BUILT FOR YOU

- OneHQ leverages industry-leading cloud infrastructure to deliver a platform you can trust.

DEDICATED, PRIVATE AND HYBRID

- No matter your path to the cloud, OneHQ has flexible and robust solutions to meet the needs of your business.

VIRTUAL SERVER HOSTING

- File sharing, domain hosting, Microsoft Exchange, VPN, terminal and workstations and more - managed by the OneHQ team.

MANAGED EMAIL SERVICES

- Including encryption, spam filtering and archiving.

CLOUD-BASED DATA PROTECTION

- Security and data protection (backup and recovery) delivered with cloud flexibility and responsiveness.

GET REAL SUPPORT – BY REAL KIWIS

- Our people are both technically excellent and love working with your team to provide exceptional support.
